Dr. Sherry Walling helps smart people do hard things. She works with leaders and entrepreneurs to tackle the common and uncommon challenges that go along with the pursuit of an extraordinary life. As a clinical psychologist, speaker, yoga teacher, podcaster, entrepreneur, and best-selling author, she draws from her professional expertise as well as her personal experience.

Her best-selling book, *The Entrepreneur's Guide to Keeping Your Shit Together*, combines the insight and warmth of a therapist with the truth-telling mirth of someone who has been there. Forbes called her podcast, *ZenFounder*, one of the 12 Best Podcasts for Entrepreneurs.

When she's not in the consulting room or hopping stages around the world; Sherry can be found on her paddleboard, swinging from the rafters pretending to be a circus performer, or ushering her three kiddos through an art museum in some fabulous city.
